Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/511,982	Applicant(s) BERNINI ET AL.
	Examiner LEE D. WILSON	Art Unit 3727

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If no period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).

Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on _____.
- 2a) This action is FINAL. 2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) Claim(s) 43-49 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) Claim(s) ____ is/are allowed.
- 6) Claim(s) 43-49 is/are rejected.
- 7) Claim(s) ____ is/are objected to.
- 8) Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) The specification is objected to by the Examiner.
- 10) The drawing(s) filed on ____ is/are: a) accepted or b) objected to by the Examiner.
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) All b) Some * c) None of:
 1. Certified copies of the priority documents have been received.
 2. Certified copies of the priority documents have been received in Application No. _____.
 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) Notice of References Cited (PTO-892)
- 2) Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) Information Disclosure Statement(s) (PTO/SB/08) _____
 Paper No(s)/Mail Date _____
- 4) Interview Summary (PTO-413)
 Paper No(s)/Mail Date. _____
- 5) Notice of Informal Patent Application
- 6) Other: _____

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 43-49 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for [0075] Obviously, the deformable main body 2 of the present embodiment can also be filled with a dispersible substance, such as a flavoring substance or a toothpaste or therapeutic substance with said substance being released, during use, through small passages provided into said main body. Alternatively, the deformable main body 2 can be impregnated with said dispersible substance. does not reasonably provide enablement for a dispersible substance impregnated within said inner main body. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make main body impregnated with said dispersible the invention commensurate in scope with these claims. The small passages in the main body are the only way the body can be impregnated with said dispersible material; However, there is no disclosure body or material holding a dispersible material outside of having a pocket.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 43- rejected under 35 U.S.C. 102(b) as being anticipated by Drulias et al (5392482).

Drulias et al discloses outer body (12), an inner main body (34) which dispersible impregnated, bristle (26 &22 nylon), a through hole .

43. (Previously Presented) A tooth-cleaning device comprising:

an inner main body (12);

engaging means, formed within said inner main body, for engaging a human tongue;

a dispersible substance impregnated (34) within said inner main body; and

bristles (26) covering an outer surface of said inner main body, whereby when placed by a user in the mouth, the bristles come into contact with the teeth and the gums so as to remove food particles and said dispersible substance is released from said inner main body.

44. (New) A tooth-cleaning device as in claim 1 wherein:
said engaging means comprises a through hole (12).

45. (New) A tooth-cleaning device as in claim 1 wherein:
said engaging means comprises an inner cavity.

46. (New) A tooth-cleaning device for placement inside a human mouth and engaged by a human tongue comprising:

an inner main body having a doughnut shape (12) with a through hole and an inner cylindrical surface, wherein the through hole is adapted to engage the human tongue;

a dispersible substance impregnated within said inner main body; and

bristles covering an outer surface of said inner main body, whereby when placed by a user in the human mouth, said bristles come into contact with the teeth and the gums so as to remove food particles and said dispersible substance is released from said inner main body.

47. (New) A tooth-cleaning device for placement inside a human mouth and engaged by a human tongue as in claim 46 wherein:

said bristles comprise nylon.

48. (New) A tooth-cleaning device for placement inside a human mouth and engaged by a human tongue as in claim 46 wherein:

said inner main body has a cross section comprising a linear portion and a curved portion.

49. (New) A tooth-cleaning device for placement inside a human mouth and engaged by a human tongue comprising:
an elongated main body (12) that is deformable having a cross section comprising a linear portion and a curved portion, whereby a shape having a through hole *can* be formed by deforming said elongated main body;
a dispersible substance impregnated (34) within said elongated main body; and
bristles covering the curved portion only of said elongated main body,
whereby when said elongated main body is deformed into the shape having a through hole and placed by a user in the human mouth, said bristles come into contact with the teeth and the gums so as to remove food particles and said dispersible substance is released from said elongated main body.

Allowable Subject Matter

4. The following is a statement of reasons for the indication of allowable subject matter:

- a. Suggestion 1. through small passages provided into said main body with a deformable main body 2 being impregnated with said dispersible substance with in said passages

wherein the structure of passages in the body in combination with the bristles doughnut shape with a through hole for the tongue

b. Suggest 2 just add this language to the independent claims 43, 46, and 49. Add this clause wherein said main body has small through passages extending from an inside cavity with with said impregnated dispersible substance which is pressure released into the bristles.

Response to Arguments

5. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

c. New rejections have been recited in regard to both art and 112 first rejections.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LEE D. WILSON whose telephone number is 571-272-4499. The examiner can normally be reached on M-TH.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, MONICA CARTER can be reached on 571-272-4475. The fax phone
